

## **Line Maintenance support to United Airlines (Continental) aircrafts**

**San Juan, Puerto Rico 19 April, 2012** – Jet Tech Aviation, the Elite provider of Line Maintenance to Air Carriers and Corporate operators was audited by United Airlines Quality Assurance Department.

United Airlines Quality Assurance auditor conducted the inspection on April 19, 2012. The purpose of the inspection was to review compliance with United's policies, procedures and FAA Regulations. The focus of this audit was maintenance capability for Continental aircrafts. Areas audited:

- Audit preparation
- Material and Equipment
- Technical Data
- Training
- General Operation
- Human Factor/Safety

United Airlines Quality Assurance Department reported **NO FINDING** during the inspection. After the results of the audit process remains clear that Jet Tech Aviation is the Elite in Line Maintenance in Puerto Rico.

Mr. Luis Melendez, President/Chief Executive Officer of Jet Tech Inc., said:

We have exceptional understanding of United Airlines needs and requirements. The recent integration of Jet Tech Aviation to United Airlines (Continental) aircrafts proves the thrust and reliance of our clients in the service we provide.
