

Jet Tech Aviation signs Aircraft Line Maintenance Agreement with Southwest Airlines

San Juan, Puerto Rico 19 September, 2012 –Jet Tech Aviation, the Elite provider of Line Maintenance to Air Carriers and Corporate operators in Puerto Rico has signed an indefinite-term Line Maintenance Technical Support Agreement with **Southwest Airlines**, the largest low-cost carrier in the United States. Jet Tech Aviation will provide comprehensive line maintenance services to the airline Boeing 737-700/800 aircrafts.

According to the agreement, Southwest Airlines will receive extensive aircraft Line Maintenance Support, including Component Inspections, Aircraft Parts Storage and Handling.

‘This agreement further enhances our company’s development in Puerto Rico. We are committed to providing Southwest Airlines with the technical quality support the FAA 145 Repair Station Certification demand and we anticipate that this will be a solid foundation for mutually beneficial long-term collaboration between our companies,’ commented the President/CEO of Jet Tech Aviation, Luis Melendez.

Jet Tech Aviation holds the **First and Only** FAA 145 Repair Station Certification with Line Maintenance Authorization in Puerto Rico and the Caribbean, integrated narrow and wide body aircraft maintenance, preventive maintenance, inspections and alterations. Based in Luis Munoz Marin International Airport, Jet Tech Aviation provides technical services for the industry classics and the modern generation aircrafts such as Boeing 737 CL, Boeing 737NG/747/757/767 Airbus A319/320/321/330, Embraer 120/190 and SA227 Metros. The company offers its customers comprehensive and tailor-made solutions for technical aircraft, engine and parts support.
